Work Experience

Mar 2022 - Aug 2022

UX Technical Designer

Lofty Sky Entertainment Toronto, ON

- Wrote and developed C# scripts to implement the UI/UX for the narrative game *Sky of Tides* in Unity.
- Added and implemented animations to in-game events, menu screens, and notification system for unlocked items.
- Collaborated with the creative team to design and feature improved user feedback and design choices.
- Documented and organized the team's game design document and content management system.

Dec 2020 - May 2021

Student Researcher (Game Designer)

George Brown College Waterfront Campus

- Designed the interface and user experience for a life simulation game of George Brown College's campus.
- Documented and maintained design documents, bug reports, and game spreadsheets.
- Implemented the game menu UIs in Unreal Engine 4.

Jun 2019 - Aug 2020

AR Unity Developer

Patio Interactive Inc. Toronto, ON

- Researched and developed solutions using Augmented Reality technology in Unity via C#.
- Implemented AR applications, user experiences, and web design for client and internal projects.
- Organized and documented company Unity projects and development workflows.

Oct 2018 - Mar 2019

UI/UX Designer

Nextech AR Solutions Toronto, ON

- Researched and designed interfaces for social media, e-commerce, and e-learning platforms using Augmented Reality technology in Figma.
- Built prototypes and wireframes for various AR experiences including face-tracking and Web AR.
